

ABOUT ME

Andreea-Corina Badache is a Ph.D. candidate in Disability Sciences at School of Health Sciences at Örebro University. She is part of the [Newbreed](#) doctoral program within the thematic area of Biology of Aging and Successful Ageing. The programme is co-funded by the European Commission through the Marie Skłodowska-Curie Actions, Co-funding of Regional, National and International Programmes (MSCA COFOUND).

Andreea obtained in 2013 a Bachelor degree in Physiotherapy from Babes-Bolyai, Romania. Afterward, she decided to pursue her studies abroad and in 2015, she completed her Master degree in Rehabilitation Sciences from KU Leuven, in Belgium. Subsequently, she enrolled in a Master program in Healthcare Policy, Innovation, and Management at Maastricht University, in the Netherlands from where she graduated in 2017. In addition, Andreea worked at the regional office of World Health Organization (WHO) in Washington DC, USA, the National Institute of Public Health of Mexico and the European Commission - Joint Research Centre in Italy where she worked on various projects related to disability and rehabilitation, global health, security, and non-communicable diseases.

In her Ph.D. project data from various Swedish and international longitudinal studies are used to analyze trends in disability and assess the factors that influence successful aging in the oldest-old.

Her academic interests include public and global health, health inequalities, epidemiology of aging and disability, life course epidemiology, gerontology, rehabilitation, health policy and non-communicable diseases.

CAREER DEVELOPMENT:

- Continue pursuing a career in academia
- Apply for Postdocs
- Expand my knowledge on aging research and epidemiological methods

GOALS FOR SPA 2021:

- Learn new methods for analyzing longitudinal studies
- Connect with fellow students and mentors
- Expand my network
- Learn from experts

HOBBIES: Dancing, Working out, Reading, Board Games, Movies, Sports (skiing, tennis, badminton, swimming, roller-skating, ice-skating)
