

ELIAS CHACCOUR

PhD Student, Health Policy and Management

York University

- **Current research:** Investigating how Arab immigrants experience aging in Canada and how they create meaning through social, cultural, and familial connections. Member of the “Imagining Age-Friendly Communities within Communities” project.
- **Goals:** Adding to the scholarly knowledge of aging through the prism of immigration status, ethnic identity, and traumatic experiences. Investigating promising practices in older adults care and caregiver support.
- **Fun facts:** Fluent in English, French and Arabic. Plant and cat parent. Matcha connoisseur and aspiring bread maker.
