

# Uirá Duarte Wisnesky

## UNIVERSITY OF ALBERTA

Faculty of Medicine and Dentistry  
Department of Emergency Medicine  
Emergency Medicine Research Group  
(EMeRG)

## ABOUT ME

- I am currently a Postdoctoral Fellow
- My background is in Nursing and Social Sciences
- I have experience in different research settings
- I work with both qualitative and quantitative methods, as well as knowledge synthesis
- My favourite hobby is crowd watching where I imagine, create and recreate people's life stories.

## CURRENT RESEARCH

My main topic of interest is quality of care for older persons. My current research aims to co-develop with people living with dementia and stakeholders an intervention to improve the care provided to older people living with dementia in the Emergency Department.

## TOPICS OF INTEREST

- Aging
- Dementia
- Quality of care
- Transitions of care

## CAREER GOALS

While obtaining a tenure-track faculty position is my ultimate goal, in the meantime, I am eager to assume leadership roles in organizations and committees to improve the care of older persons.

I envision to develop a program of research in geriatric emergency medicine designed to generate bidirectional and iterative mobilization of evidence into action.
